

Vista Honors 2023

*A Sight Tech Global VIP Event benefiting
Vista Center for the Blind and Visually Impaired*

2023 Honoree

Be My Eyes is a free mobile app that connects 500,000 people living with vision loss to volunteers who offer their sight to help with daily living tasks. At a moment's notice, sighted people lend their eyes to solve tasks big and small to help people living with vision loss to lead more independent lives.

Be My Eyes was started in Denmark in 2012 by Hans Jørgen Wiberg, a Danish furniture craftsman who is visually impaired himself.

Be My Eyes supports:

- 6.3 million volunteers
- 150 countries
- 180 languages.

Be My Eyes is the biggest online community for people living with vision loss, as well as one of the largest micro-volunteering platforms in the world!

Friday, April 21st, 6:00 - 8:30 pm

Computer History Museum, Mountain View

Vista Center's 2nd Annual Vista Honors brings together Silicon Valley's accessibility community to honor revolutionary leaders and companies that are shaping technology to support people living with vision loss.

Vista Honors is an event that celebrates individuals in the community who are innovating accessibility, and honors outstanding contributions supporting people living with vision loss.

Please join us to honor the work of social entrepreneur Hans Jørgen Wiberg and the impact of the company he founded, Be My Eyes. This exclusive event and fundraiser benefits Vista Center's critical programs and services.

Believing that vision loss is no longer a barrier to independence, Vista Center, a 501(3)(c) non-profit organization, empowers individuals who are blind or visually impaired to embrace life to the fullest through evaluation, counseling, education, and training.
